May 20____

September 20____

IAU College of Medicine is now providing transportation to and from school for all students who choose to participate. The IAU shuttle is a safe, reliable, affordable and convenient method of transportation for IAU students. It is highly recommended that ALL new students participate in the shuttle for at least one semester. This will allow students to become accustomed to the island. The shuttle will provide service for two pick up times in the morning and four in the evening, allowing flexibility to accommodate students' schedules.

Students must indicate below their decision regarding usage of the IAU Shuttle.

Please check the appropriate box below.

- I **would** like to sign up to use the IAU Shuttle.
- I **will not** use the IAU Shuttle.
